## CONSOLIDATED FINANCIAL STATEMENTS

## FOR THE YEAR ENDED SEPTEMBER 30, 2017 AND 2016

(Expressed in Canadian Dollars)

### INDEPENDENT AUDITORS' REPORT

To the Shareholders of Regulus Resources Inc.

We have audited the accompanying consolidated financial statements of Regulus Resources Inc., which comprise the consolidated statements of financial position as at September 30, 2017 and 2016, and the consolidated statements of operations and comprehensive loss, changes in equity and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

### Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of Regulus Resources Inc. as at September 30, 2017 and 2016 and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

Expressed in Canadian Dollars

For the Years ended September 30, 2017 and 2016

#### 1. NATURE AND CONTINUANCE OF OPERATIONS

Regulus Resources Inc. ("Regulus" or the "Company") is a mineral exploration company formed on December 16, 2010, with a portfolio of properties located in Peru, Argentina, Chile, the USA, and Canada.

As at September 30, 2017, the Company had working capital of \$4,604,128. Management believes that the Company has sufficient working capital to maintain its operations and its activities for the next fiscal year.

These consolidated financial statements were authorized by the audit committee and by the board of directors of the Company on January 23, 2018.

#### 2. BASIS OF PREPARATION

These consolidated financial statements, including comparatives have been prepared using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The consolidated financial statements have been prepared on an historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

The accounting policies set out in Note 3 have been applied consistently to all periods presented in these consolidated financial statements.

The preparation of these consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported expenses during the period. Actual results could differ from these estimates.

### **Judgments**

In the process of applying the Company's accounting policies, management has made the following judgments which have the most significant effect on the amounts recognized in the consolidated financial statements:

### Functional currencies

The functional currency of an entity is the currency of the primary economic environment in which the entity operates. The functional currency of the Company and its subsidiaries was determined by conducting an analysis of the consideration factors identified in IAS 21, the Effects of Changes in Foreign Exchange Rates. The functional currency of each entity is disclosed below under "Foreign Exchange".

Impairment of exploration and evaluation assets

Determining if there are any facts and circumstances indicating impairment loss or reversal of impairment losses is a subjective process involving judgment and a number of estimates and interpretations. Determining whether to test for impairment of exploration and evaluation assets requires management's judgment, and consideration of whether the period for which the Company has the right to explore in the specific area has expired or will expire in the near future, and is not expected to be renewed; substantive expenditure on further exploration and evaluation of mineral resources in a specific area is neither budgeted nor planned; exploration for and evaluation of mineral resources in a specific area have not led to the discovery of commercially viable quantities of mineral resources and the Company has decided to discontinue such activities in the specific area; or sufficient data exists to indicate that, although a development in a specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

Expressed in Canadian Dollars

For the Years ended September 30, 2017 and 2016

### 2. BASIS OF PREPARATION (cont'd...)

#### **Estimates**

Significant estimates, made by management, about the future and other sources of estimation uncertainty at the end of the reporting period that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made relate to, but are not limited to, the following:

Carrying value and recoverability of exploration and evaluation assets

The carrying amount of Company's exploration and evaluation assets does not necessarily represent present or future values and the Company's exploration and evaluation assets have been accounted for under the assumption that the carrying amount will be recoverable. Recoverability is dependent on various factors, including the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development and upon future profitable production or disposition of the mineral properties. Additionally, there are numerous geological, economic, environmental and regulatory factors and uncertainties that could affect management's assessment of the overall viability of its properties or to the likelihood of generating future cash flows necessary to recover the carrying value of the Company's exploration and evaluation assets.

To the extent that any of management's assumptions change there could be a significant effect on the Company's future financial position, operating results and cash flows.

### Fair value of stock options and warrants

Determining the fair value of warrants and stock options requires judgments related to the choice of a pricing model, the estimation of stock price volatility, the expected forfeiture rate and the expected term of the underlying instruments. Any changes in the estimates or inputs utilized to determine fair value could result in a significant effect on the Company's future operating results or on other components of shareholders' equity.

#### Income taxes

The estimation of income taxes includes evaluating the recoverability of deferred tax assets based on an assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all of the deferred income tax assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income, which in turn is dependent upon the successful discovery, extraction, development or commercialization of mineral reserves. To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets and deferred income tax provisions or recoveries could be affected.

### Decommissioning costs

Upon retirement of the Company's exploration and evaluation assets decommissioning costs will be incurred by the Company. Estimates of these costs are subject to uncertainty associated with the method, timing and extent of future decommissioning activities. The liability, the related asset and the corresponding expense are affected by estimates with respect to the costs and timing of decommissioning.

### Basis of consolidation

These consolidated financial statements include the financial statements of the Company and the entities controlled by the Company (Note 14). Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. All intercompany transactions and balances have been eliminated.

### Foreign exchange

The functional currency is the currency of the primary economic environment in which the entity operates and is determined for each entity within the Company. The functional currency for the entities within the Company are: the Canadian dollar (the Company), the Argentine peso ("A-Peso") (Regulus Argentina S.A. and Minera El Toro S.A.), and the United States dollar ("U.S.\$") (Pachamama (Bermuda) Ltd, Argex Mining Samenta Ltd and Argex Cerro Gordo Ltd., Southern Legacy Minerals Inc., Southern Legacy Peru S.A.C., KoriAnta S.A.C., Anta Norte S.A.C., Maria Eugenia 2 Mina Volare de Cajamarca S.A.C., SMRL El Sinchao de Cajamara, Rita Margot de Cajamara S.A.C., Minas del Sinchao S.A., and Minera Southern Legacy Chile Limitada).

Expressed in Canadian Dollars

For the Years ended September 30, 2017 and 2016

### 2. BASIS OF PREPARATION (cont'd...)

The functional currency determinations were conducted through an analysis of the consideration factors identified in IAS 21, The Effects of Changes in Foreign Exchange Rates.

Transactions in currencies other than the entities' functional currency are recorded at exchange rates prevailing on the dates of the transactions. At the end of each reporting period, monetary assets and liabilities of an entity that are denominated in foreign currencies are translated at the rate of exchange at the consolidated statement of financial position date while non-monetary assets and liabilities are translated at historical rates. Revenues and expenses are translated at the exchange rates approximating those in effect on the date of the transactions. Exchange gains and losses arising on translation are included in the consolidated statements of operations and comprehensive loss.

### 3. SIGNIFICANT ACCOUNTING POLICIES

### Financial instruments

### Financial assets

The Company classifies its financial assets into one of the following categories depending on the purpose for which the asset was acquired. The Company's accounting policy for each category is as follows:

Fair value through profit or loss - This category comprises derivatives or assets acquired or incurred principally for the purpose of selling or repurchasing it in the near term. They are carried in the consolidated statements of financial position at fair value with changes in fair value recognized in the consolidated statement of operations and comprehensive loss.

Loans and receivables - These assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are carried at cost less any provision for impairment. Individually significant receivables are considered for impairment when they are past due or when other objective evidence is received that a specific counterparty will default.

Held-to-maturity investments - These assets are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Company's management has the positive intention and ability to hold to maturity. These assets are measured at amortized cost using the effective interest method. If there is objective evidence that the investment is impaired, determined by reference to external credit ratings and other relevant indicators, the financial asset is measured at the present value of estimated future cash flows. Any changes to the carrying amount of the investment, including impairment losses, are recognized in the consolidated statement of operations and comprehensive loss.

Available-for-sale - Non-derivative financial assets not included in the above categories are classified as available-for-sale. They are carried at fair value with changes in fair value recognized directly in equity. Where a decline in the fair value of an available-for-sale financial asset constitutes objective evidence of impairment the amount of the loss is removed from equity and recognized in the consolidated statement of operations and comprehensive loss.

All financial assets except for those at fair value through profit or loss are subject to review for impairment at least at each reporting date. Financial assets are impaired when there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described above.

### Financial liabilities

The Company classifies its financial liabilities into one of two categories, depending on the purpose for which the asset was acquired. The Company's accounting policy for each category is as follows:

Fair value through profit or loss - This category comprises derivatives or liabilities acquired or incurred principally for the purpose of selling or repurchasing it in the near term. They are carried in the consolidated statements of financial position at fair value with changes in fair value recognized in the consolidated statement of operations and comprehensive loss.

Expressed in Canadian Dollars

For the Years ended September 30, 2017 and 2016

### 3. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

### Financial instruments (cont'd...)

Other financial liabilities - This category includes amounts due to related parties and accounts payables and accrued liabilities which are recognized at amortized cost.

The Company has classified its cash as fair value through profit and loss. The Company's receivables are classified as loans and receivables. The Company's long-term investments are classified as available-for-sale. The Company's accounts payable and accrued liabilities and due to related parties are classified as other financial liabilities.

### Exploration and evaluation assets

Costs related to pre-exploration are expensed as incurred while costs related to the acquisition, exploration and development of exploration and evaluation assets are capitalized by property until the commencement of commercial production. Each of the Company's exploration and evaluation assets is considered to be a cash generating unit. If commercially profitable ore reserves are developed, capitalized costs of the related property are reclassified as mining assets and amortized using the unit of production method. If, after management review, it is determined that capitalized acquisition, exploration and development costs are not recoverable over the estimated economic life of the property, the property is abandoned or management deems there to be an impairment in value the property is written down to its net realizable value.

Any option payments received by the Company from third parties or tax credits refunded to the Company are credited to the capitalized cost of the exploration and evaluation assets. If payments received exceed the capitalized cost of the exploration and evaluation assets, the excess is recognized as income in the year received. The amounts shown for exploration and evaluation assets do not necessarily represent present or future values. Their recoverability is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development and future profitable production or proceeds from the disposition thereof.

### Cash

Cash is comprised of cash on deposit.

### Impairment

At the end of each reporting period the Company's assets are reviewed to determine whether there is any indication that those assets may be impaired. If such indication exists the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any. The recoverable amount is the higher of fair value less costs to sell and value in use. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and an impairment loss is recognized in profit or loss for the period. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but not to an amount that would exceed the original carrying amount in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

#### Provision for decommissioning liability

The Company recognizes liabilities for statutory, contractual, constructive or legal obligations associated with the retirement of exploration and evaluation assets and equipment when those obligations result from the acquisition, construction, development or normal operation of assets. The net present value of future rehabilitation costs is capitalized to exploration and evaluation assets along with a corresponding increase in the rehabilitation provision in the period incurred.

Expressed in Canadian Dollars

For the Years ended September 30, 2017 and 2016

### 3. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

Pre-tax discount rates that reflect the time value of money are used to calculate the net present value. The rehabilitation asset is depreciated on the same basis as exploration and evaluation assets.

The Company's estimates of reclamation costs could change as a result of changes in regulatory requirements, discount rates and assumptions regarding the amount and timing of the future expenditures. These changes are recorded directly to exploration and evaluation assets and the rehabilitation provision. The Company's estimates are reviewed annually for changes in regulatory requirements, discount rates, effects of inflation and changes in estimates.

Changes in the net present value, excluding changes in the Company's estimates of reclamation costs, are charged to the consolidated statement of operations and comprehensive loss for the period.

### **Equipment**

Equipment is stated at cost less accumulated amortization and accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with such costs will flow to the Company and cost can be measured reliably. The carrying amount of a replaced asset is derecognized when replaced. Repairs and maintenance costs are charged to operations and comprehensive loss during the period in which they are incurred.

The major categories of equipment are amortized as follows:

Vehicles - 30% declining balance basis Office furnishings - 20% declining balance basis Equipment - 30% declining balance basis

The Company allocates the amount initially recognized in respect of an item of equipment to its significant parts and amortizes separately each such part. Residual values, method of amortization and useful lives are reviewed annually and adjusted if appropriate.

Gains and losses on disposals of equipment are determined by comparing the proceeds with the carrying amount of the asset and are included as part of other gains and losses in the consolidated statements of operations and comprehensive loss.

### Loss per share

Basic loss per share is calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted loss per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive.

### Share-based compensation

The Company grants stock options to acquire common shares of the Company to directors, officers, employees and consultants.

The fair value of stock options is measured on the date of grant, using the Black-Scholes option pricing model and is recognized over the vesting period. Consideration paid for the shares on the exercise of stock options is credited to share capital stock.

In situations where equity instruments are issued to non-employees and some or all of the goods or services received by the entity as consideration cannot be specifically identified, they are measured at fair value of the share-based payment. Otherwise, share-based payments are measured at the fair value of goods or services received.

Expressed in Canadian Dollars

For the Years ended September 30, 2017 and 2016

#### 3. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

#### Income taxes

Income tax is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity. Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at period end, adjusted for amendments to tax payable with regards to previous years.

Deferred tax is recorded using the liability method, providing for temporary differences, between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: goodwill not deductible for tax purposes; the initial recognition of assets or liabilities which affect neither accounting nor taxable loss as well as differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the consolidated statement of financial position date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

### Comprehensive income (loss)

Comprehensive income (loss) is the change in the Company's net assets that results from transactions, events and circumstances from sources other than the Company's shareholders and includes items that are not included in net profit such as unrealized gains or losses on available-for-sale investments, and foreign currency gains or losses related to translation of the financial statements of foreign operations. The Company's comprehensive income (loss), components of other comprehensive income, and cumulative translation adjustments are presented in the consolidated statements of comprehensive income (loss) and the consolidated statements of changes in equity.

### Recent accounting pronouncements

Effective October 1, 2016, the following standards were adopted but did not have a material impact on the consolidated financial statements.

- IAS 27 & IFRS 1, Equity Method in Separate Financial Statements - IAS 27 is amended to restore the option to use the equity method to account for investments in subsidiaries, joint ventures and associates in an entity's separate financial statements. IFRS 1 is amended to permit use of the business combinations exemption for investments in subsidiaries accounted for using the equity method in the separate financial statements of the first-time adopter.

Accounting standards, amendments and interpretations not yet effective:

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods beginning after January 1, 2017 or later periods. The following new standards, amendments and interpretations that have not been early adopted in these consolidated financial statements are not expected to have a material effect on the Company's future results and financial position:

IFRS 9, Financial Instruments replaces the current standard IAS 39 Financial Instruments: Recognition and Measurement, replacing the current classification and measurement criteria for financial assets and liabilities with only two classification categories — amortized cost and fair value. IASB has tentatively decided to require an entity to apply IFRS 9 for annual periods beginning on or after January 1, 2018.

Expressed in Canadian Dollars

For the Years ended September 30, 2017 and 2016

### 3. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

- IFRS 15, Revenue Recognition Revenue from Contracts with Customers establishes the principles that an entity shall apply to financial statements about the nature, amount, timing, and uncertainty of revenue and cash flows arising from a contract with a customer, effective for annual periods beginning on or after January 1, 2017.
- IFRS 16 specifies how an IFRS reporter will recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, with IFRS 16's approach to lessor accounting substantially unchanged from its predecessor, IAS 17. IFRS 16 is effective for annual periods beginning on or after January 1, 2019. The extent of the impact of adoption has not yet been determined.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or not expected to have a significant impact on the Company's consolidated financial statements.

### 4. CASH

	September 30, 2017	September 30, 2016
Cash on deposit	\$ 6,815,719	\$ 14,425,974

#### 5. MARKETABLE SECURITIES

At September 30, 2017 and 2016, the Company did not hold any marketable securities.

	Fair Value	Cost

### 9. EXPLORATION AND EVALUATION ASSETS

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mining properties. The Company has investigated title to its exploration and evaluation assets and, to the best of its knowledge, title to its property is in good standing.

Expressed in Canadian Dollars

For the Years ended September 30, 2017 and 2016

### 9. EXPLORATION AND EVALUATION ASSETS (...cont'd)

The exploration and evaluation assets in which the Company has an interest are located in Argentina, Peru, Chile, the U.S. and Canada and the Company is therefore relying on title opinions by legal counsel who are basing such opinions on the laws of Argentina, Peru, Chile, the U.S. and Canada.

### 9. EXPLORATION AND EVALUATION ASSETS (cont'd...)

### AntaKori Project, Peru

The Company has acquired an option to earn an interest in the AntaKori project through the following option agreements executed by its Peruvian subsidiary, Southern Legacy Peru S.A.C. ("Regulus Peru"):

- (a) An option agreement was executed in December 2011 with certain members of the Santolalla family, providing a right to acquire 86.8% of the capital stock of Minas del Sinchao S.A., which owns 50% of the capital stock of SMRL Rita Margot de Cajamarca. SMRL Rita Margot de Cajamarca owns three mining rights and has a 50% interest in SMRL Maria Eugenia 2 Mina Volare de Cajamarca which owns an additional mining right that comprises a portion of the AntaKori project. The agreement also provides for a 1% net smelter return royalty for the Santolalla family which is subject to a US\$4.5 million buy-out option. Payments made to date are US\$3,038,000 with no payments remaining;
- (b) A second option agreement dated November 2013 provides the right to acquire an additional 7.7% interest in Minas del Sinchao S.A, which increases the Company's right to acquire an interest in Minas del Sinchao S.A. up to 94.5% of its capital stock. Payments made to date are US\$233,926 with no payments remaining;
- (c) Two option and usufruct agreements dated March 2012 were executed whereby two owners of a combined 12.5% ownership of SMRL Rita Margot De Cajamarca granted in favor of Regulus Peru a usufruct right over their 12.5% ownership of the entity. With the usufruct over the vendors' shares, Regulus Peru has an option to acquire 62.5% of the SMRL Rita Margot De Cajamarca capital stock. Each of these option and usufruct agreements provide the owners a net smelter royalty of 0.1875%. Payments made to date are US\$877,000 with no payments remaining;
- (d) Six option and usufruct agreements were executed in December 2012, whereby 30 owners of a combined 62.5% ownership of SMRL El Sinchao De Cajamarca ("El Sinchao") granted in favour of SLM Peru a usufruct right over their 62.5% ownership of the entity with the payment terms set out in the table below. El Sinchao owns 100% of three mining concessions that compose a portion of the AntaKori project. With the usufruct over the vendors' shares, Regulus Peru has an option to acquire 62.5% of El Sinchao capital stock. No smelter royalties or back-in rights exist as part of this option agreement. Payments made to date are US\$1,173,558 with no payments remaining;
- (e) Two option and usufruct agreements were executed in March 2013, whereby four owners of a combined 20.63% ownership of El Sinchao granted in favour of Regulus Peru a usufruct right over their 20.63% ownership of the entity. With the usufruct over the vendors' shares, Regulus Peru increased to 83.13% the total of El Sinchao's capital stock it has options to acquire. These option agreements do not contain smelter royalties or back-in rights clauses. Payments made to date are US\$386,381 with no payments remaining;
- (f) An option and usufruct agreement were executed in September 2014, whereby Regulus Peru purchased 25% of the outstanding shares of Rita Margot de Cajamarca for a total of US\$1,750,000. Payments made to date are US\$1,750,000 with no payments remaining.

September 15, 2016 (paid)		37,000
December 31, 2016 (paid)		38,000
Total	\$	7,460,062

The AntaKori property is in good standing with regard to its option payments.

During the year ended September 30, 2016, the Company announced that its wholly owned Peruvian subsidiary, Southern Legacy Peru S.A.C, ("Regulus Peru"), had entered into binding Memorandum of Understanding agreements ("MOU's") with Compañía Minera Coimolache S.A. ("Coimolache") and Compañía Minera Colquirrumi S.A. ("Colquirrumi"), companies that hold mineral concessions immediately adjacent to, and inter-fingering with, Regulus Peru's AntaKori copper-gold project in northern Peru. These agreements will allow for mutual access, mutual rights of expansion and collaborative exploration of the project area, providing benefit to all three parties. The MOU agreements are to be superceded by more comprehensive definitive agreements. During the year ended September 30, 2017, the Company finalized the execution of a definitive agreement with Coimolache and Colquirrumi, based on the previously executed MOU's with the terms of the agreements remaining effectively the same.

### Rio Grande, Argentina

The Company holds a 100% interest in the Rio Grande property in Salta Province, Argentina.

### Puchuldiza Property, Chile

The Company holds a 100% interest in the Puchuldiza Property. The Company is required to pay a royalty of 1.5% of the net smelter return from commercial production up to a cumulative total of US\$5,000,000.

During the year ended September 30, 2017, the Company wrote off the capitalized cost of \$Nil (2016 - \$761) associated with the Puchuldiza property as a result of management not planning any significant work on the property in the near future.

Expressed in Canadian Dollars

For the Years ended September 30, 2017 and 2016

### 9. EXPLORATION AND EVALUATION ASSETS (cont'd...)

### Golden Brew, Nevada, USA

On February 14, 2014, the Company signed an agreement with Highway 50 Gold Corp. ("Highway 50") whereby Highway 50 granted Regulus an option (the "Option") to earn a 50% interest in Highway 50's Golden Brew property. In order to exercise the Option, the Company must spend US\$5,000,000 on exploration expenditures on the project over 5 years. Upon earn-in the parties will form a joint venture on a 50/50 basis. The transaction was considered to be non-arms length under the rules of the TSX Venture Exchange by virtue of the fact that two of the directors of Regulus, John Leask and Gordon Leask, are also directors of Highway 50. This transaction was unanimously approved by the three other Regulus Board members, all of whom are independent of Highway 50, with John Leask and Gordon Leask both abstaining. Subsequent to the year ended September 30, 2017, the Company amended and paid the annual option payment from US\$50,000 to US\$30,000.

In addition to the AntaKori, Rio Grande, Puchuldiza, and Golden Brew properties, the Company holds a 100% interest in the Aguas Calientes, El Camino, Catua, Oscuro and La Frontera properties in Argentina and the Fireweed property in British Columbia, Canada.

### 10. LONG-TERM INVESTMENT

Long-term investment is comprised of holdings in publicly traded securities as follows:

	Fair Valu	е	Cost
Balance as at September 30, 2015 Fair market value adjustments	\$ 302,00 69,00		740,000
Balance as at September 30, 2016 Fair market value adjustments	\$ 371,00 479,00		740,000 -
Balance as at September 30, 2017	\$ 850,00	0 \$	740,000

The Company also holds 2,000,000 share purchase warrants exercisable in the capital of Highway 50 Gold Corp. which were extended to February 28, 2018 at a price of \$0.60. These warrants have a fair value of \$Nil at September 30, 2017.

### 11. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities for the Company are as follows:

	Sep	tember 30, 2017	September 30, 2016
Trade payables Accrued liabilities (Note 19)	\$	2,289,877	\$ 561,807 317,929
	\$	2,289,877	\$ 879,736

All accounts payables and accrued liabilities for the Company fall due within the next 12 months.

Expressed in Canadian Dollars

For the Years ended September 30, 2017 and 2016

#### 12. DECOMMISSIONING LIABILITY

Although the ultimate amount of the decommissioning liability is uncertain, the best estimate of these obligations is based on information currently available. Significant closure activities include land rehabilitation, demolition of buildings and other costs. The following table presents the aggregate carrying amount of the obligation associated with the retirement of the mineral property interests.

	September 30, 2017	September 30, 2016
Asset retirement obligation – beginning of year Remediation performed Change in estimates Interest expense Foreign exchange movement	\$ 1,331,929 (865,821) (111,254) 39,636 (38,134)	\$ 1,677,283 (579,887) 295,021 41,627 (102,115)
Asset retirement obligation – end of year	\$ 356,356	\$ 1,331,929

The total amount of estimated undiscounted cash flows required to settled the Company's estimated obligation is \$519,794 as at September 30, 2017 (2016 - \$1,412,318), which has been discounted using a credit adjusted rate of 10% and an inflation rate of 2%. The present value of the decommissioning liabilities may be subject to change based on management's estimates, changes in remediation technology or changes to applicable laws and regulations. The decommissioning liability relates to the Company's Argentinean properties. The decommissioning liability is expected to be settled at various dates which are currently expected to extend up to 2022.

#### 13. CAPITAL STOCK AND SHARE COMPENSATION RESERVE

Authorized: unlimited common shares without par value. All issued shares are fully paid.

Treasury shares: recorded at cost.

During the year ended September 30, 2017, the Company received proceeds of \$101,250 from the exercise of 225,000 options at a price of \$0.45 per option and received proceeds of \$270,435 from the exercise of 295,584 warrants at an average price of \$0.91 per warrant.

During the year ended September 30, 2016, the Company:

a) closed a brokered unit private placement offering (the "Offering"). An aggregate of 11,537,500 units were sold under the Offering at a price of \$1.20 per Unit for total gross proceeds of \$13,845,000. The gross proceeds of the Offering include 1,537,500 Units issued as a result of the exercise of an Agents' overallotment option granted in connection with the Offering. In addition, the Company closed its concurrent non-brokered offering of 425,000 Units for total gross proceeds of \$510,000. In total the Company issued 11,962,500 Units, for gross proceeds raised under the brokered and non-brokered portion of the Offering of \$14,353,063 with net proceeds of \$13,504,352. Each Unit consists of one common share and one half common share purchase warrant exercisable at \$1.60 until January 27, 2020. The Company incurred cash share issuance costs of \$848,711.

b) received proceeds of \$6,750 from exercise of 15,000 stock options.

### **Stock Options**

The Company has a stock option plan ("the Plan") for directors, officers, employees and consultants of the Company and its subsidiaries. The number of common shares subject to the stock options granted under the Plan is limited to 10% of the issued and outstanding common shares of the Company. The Plan provides for a maximum term of five years for stock options and sets the most favorable vesting terms as one-third of the total stock options granted on the day of the grant and on each of the first and second anniversaries of the date of grant. As at September 30, 2017, the Company had options outstanding to purchase 6,393,334 common shares, subject to early expiry under certain conditions and subject to specified vesting periods.

For the Years ended September 30, 2017 and 2016

### 13. CAPITAL STOCK AND SHARE COMPENSATION RESERVE $(\mathrm{cont'd}\ldots)$

The following table summarized movements in stock options outstanding for the year ended September 30, 2017:

	Number of Options	Weighted Average Exercise Price
Balance, September 30, 2015	4,577,334	\$ 0.45
Options granted	2,105,000	\$ 1.50
Options exercised	(15,000)	\$ 0.45
Options forfeited/expired	(49,000)	\$ 0.45
Balance, September 30, 2016	6,618,334	\$ 0.78
Options exercised	(225,000)	\$ 0.45
Balance, September 30, 2017	6,393,334	\$ 0.81
Number of options currently exercisable	5,340,834	\$ 0.66

The weighted average share price for the options exercised was \$1.34 (2016 - \$0.91)

The following table summarizes information about stock options outstanding at September 30, 2017:

Exercise Price	Number Outstanding	Number Exercisable	Expiry Date
\$ 0.45 \$ 1.50	4,288,334 2,105,000	4,288,334 1,052,500	December 13, 2019 September 2, 2021

### 14. RELATED PARTY TRANSACTIONS (...cont'd)

During the year ended September 30, 2017, the Company entered into the following transactions with key management personnel and related parties. Amounts due to related parties have no specific terms of repayment, are unsecured, and have no interest rate.

- a) Double Black Diamond Resources LLC. ("DBD Resources") is a private company controlled by Mr. John Black, CEO and a director of the Company. For the year ended September 30, 2017, DBD Resources was paid \$209,190 (2016 - \$158,354). Management services paid to DBD Resources are classified as management fees expense in the consolidated statements of operations and comprehensive loss.
  - At September 30, 2017, the Company owed Nil (2016 Nil) to DBD Resources and 27,377 (2016 209,454) to Mr. John Black for the expenses incurred in the normal course of the business.
- b) For the year ended September 30, 2017, Mr. Fernando Pickmann, President, COO and a director of the Company, was paid or accrued \$193,031 in consulting fees (2016 \$158,354) and \$1,640 as a bonus (2016 \$128,577). Consulting fees and bonus paid or accrued to Mr. Pickmann are classified as management fees expense in the consolidated statements of operations and comprehensive loss. A law firm at which Mr. Pickmann is a partner was paid or accrued \$181,609 (2016 \$224,277) for legal services. Legal fees paid to Mr. Pickmann's law firm are classified as legal expenses in the consolidated statements of operations and comprehensive loss.
  - At September 30, 2017, the Company owed \$756 (2016 \$244,738) to Mr. Pickmann and the law firm at which he is a partner.
- c) Unicus Funds Ltd. ("Unicus") is a private company controlled by Mr. Mark Wayne, CFO and a director of the Company. For the year ended September 30, 2017, Unicus was paid \$50,000 (2016 \$50,000). Management services paid to Unicus are classified as management fees expense in the consolidated statements of operations and comprehensive loss.
  - At September 30, 2017, the Company owed \$Nil (2016 \$Nil) to Unicus.
- d) The Rock Doctor Limitada ("Rock Doctor") is a private company controlled by Mr. Kevin Heather, Chief Geological Officer of the Company. For the year ended September 30, 2017, Rock Doctor was paid \$209,190 (2016 \$158,354). Amounts paid to Rock Doctor are classified as management fees in the consolidated statements of operations and comprehensive loss.
  - At September 30, 2017, the Company owed \$Nil (2016 \$Nil) to Rock Doctor.
- e) Two non-executive directors were each paid \$7,500 (2016 \$Nil) for professional services. The total amount of these fees of \$15,000 was classified as management fees in the consolidated statements of operations and comprehensive loss.
  - At September 30, 2017, the Company owed \$Nil (2016 \$Nil) to non-executive directors.

#### Key Management Personnel:

Key management personnel include those persons having authority and responsibility for planning, directing and controlling the activities of the Company as a whole. The Company has determined that key management personnel consist of executive and non-executive members of the Company's Board of Directors and corporate officers.

### 17. FINANCIAL AND CAPITAL RISK MANAGEMENT

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

 $Level\ 1-Unadjusted\ quoted\ prices\ in\ active\ markets\ for\ identical\ assets\ or\ liabilities;$ 

Level 2 - Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

The fair value of the Company's receivables, accounts payable and accrued liabilities, and due to related parties approximate carrying value, which is the amount recorded on the consolidated statements of financial position. The Company's other financial instruments, cash, and long-term investments, under the fair value hierarchy, are based on level one quoted prices in active markets for identical assets or liabilities.

### Regulus Resources Inc.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Expressed in Canadian Dollars

For the Years ended September 30, 2017 and 2016

### 17. FINANCIAL AND CAPITAL RISK MANAGEMENT (cont'd...)

The Company is exposed to varying degrees to a variety of financial instrument related risks:

Credit rick

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations.

The Company's cash is held at large Canadian financial institutions in interest-bearing accounts. The Company has no investment in asset backed commercial paper.

The Company's receivables consist mainly of tax credits due from the governments of Canada, Peru, Argentina and Chile. As such, the Company does not believe it is subject to significant credit risk.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at September 30, 2017, the Company had a cash balance of \$6,815,719 to settle current liabilities of \$2,318,010. Management believes that it has sufficient funds to meet its current liabilities as they become due.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

### a) Interest rate risk

The Company has cash balances. The interest earned on the cash balances approximates fair value rates, and the Company is not at a significant risk to fluctuating interest rates.

### b) Foreign currency risk

The Company is exposed to foreign currency risk on fluctuations related to cash, receivables and accounts payable and accrued liabilities that are denominated in US\$, the A-Peso, the Chilean peso ("C-Peso") and the Peruvian nuevo sol ("PEN"). A 10% fluctuation in the US\$, A-Peso, C-Peso and PEN against the Canadian dollar would affect accumulated other comprehensive loss for the year by approximately \$396,000.

### c) Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company. The Company currently maintains investments in certain publicly listed companies. There can be no assurance that the Company can exit these positions if required resulting in proceeds, which approximate the carrying amount of these investments. A 10% fluctuation in market prices would affect comprehensive income (loss) by \$85,000.

### Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the exploration and development of its exploration and evaluation assets, acquire additional mineral property interests and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk. In the management of capital, the Company includes components of shareholders' equity.

Expressed in Canadian Dollars

For the Years ended September 30, 2017 and 2016

### 17. FINANCIAL AND CAPITAL RISK MANAGEMENT (cont'd...)

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue debt, acquire or dispose of assets or adjust the amount of cash and cash equivalents and investments.

The Company currently is not subject to externally imposed capital requirements. There were no changes in the Company's approach to capital management.

### 18. COMMITMENTS

The Company has entered into lease agreements for its premises in Peru. The annual lease commitments are as follows:

	Peru
2018 2019	\$ 79,816 31,480
	\$ 111,296

#### 19. CONTINGENCIES

- a) The Company is involved in an arbitration process to settle a dispute between Southern Legacy and a former officer who is claiming an amount of US\$200,000 for lost consulting fees. On August 29, 2016, the appointed arbitrarissued a decision against the Company for non-compliance of payment terms for fees agreed under the consulting agreement signed by the parties, in the amount of USD\$134,500 plus applicable mandatory interest accrued, and a portion of the arbitration costs. During the year ended September 30, 2017, the Company settled the dispute in full by paying USD\$143,725 (\$180,822).
- b) The Company was notified by tax authorities that it has been assessed penalties of \$130,919 related to its US tax filings. This entire balance had been recorded in accrued liabilities on the audited consolidated statement of financial position as at September 30, 2016. During the year ended September 30, 2017, the Company settled the assessed penalties in full by paying \$41,380 (USD\$30,762) and receiving confirmation from the tax authorities that the remaining \$89,539 has been waived.

### 20. INCOME TAXES

A reconciliation of current income taxes at statutory rates with the reported taxes is as follows:

	2017	2016
Loss for the year	\$ (3,492,515)	\$ (6,209,899)
Expected income recovery	\$ (908,000)	\$ (1,615,000)
Change in statutory, foreign tax, foreign exchange rates and other	7,000	(84,000)
